

Professional Windshield Repair and Headlight Restoration Products

Simply The Best

The Delta Difference

Family owned and operated since 1984, Delta Kits specializes in high quality windshield repair and headlight restoration products at affordable prices. Our industry leading tools, resins, and equipment are preferred by professional windshield repair and headlight restoration technicians worldwide and are highly respected for quality, durability, and ease of use.

All Delta Kits customers are provided with outstanding customer service. Our friendly and knowledgeable staff provides quick and accurate answers to all your windshield repair and headlight restoration questions. Toll free ordering and tech support, same day shipping, monthly training classes, and a money back satisfaction guarantee, are all part of the Delta Kits experience. We take great pride in treating every customer with respect and do everything possible to “earn” your business.

Whether adding windshield repair and headlight restoration services to your existing business or starting a new one, Delta Kits has the products, training, service, and support to help make your business a success!

Two-Time Windshield Repair Gold Medalist and Delta Kits Customer, Brian Fenner at the 2012 Walt Gorman Memorial Windshield Repair Olympics with Delta Kits President, Brent Deines. Fenner won the Gold Medal using the B150 and B250 Windshield Repair Bridges

Bridges, Injectors, and End Seals

12000 I-100 Spring Type Stainless Steel Injector

At the heart of every great windshield repair system there is a great injector. The exclusive spring loaded Delta Kits I-100 Injector is preferred by auto glass repair and replacement professionals worldwide. You won't find a finer injector at any price!

- Easy to use and clean
- Low maintenance (one end seal)
- Ergonomic comfort grip lift knob
- Super durable polished stainless steel
- Lightning fast vacuum/pressure switching
- Spring loaded mechanism for superior pressure control
- Beefy oversized upper plunger for exceptional durability
- Optimum thread count minimizes resin loss due to "thread trapping"
- Exclusive industry leading injection molded Delta Kits end seal design
- Oversized upper cylinder allows use of eyedroppers and syringes for resin conservation
- Industry leading Delta Kits limited lifetime warranty

12302 I-75 Aluminum Injector Body, Screw Type

Injector End Seals

Using superior materials and proprietary design, Delta Kits end seals outperform the competition hands down. Don't be fooled by imitations, for fit, form, and function, nothing else compares.

- Perfectly matched for all Delta Kits metal injectors
- Precision injection molding process for quality and consistency
- Chamfered OD for easy installation (injector end)
- Flared ID matched to plunger shape for smooth insertion (injector end)
- Tapered ID for increased pressure and leak resistance (glass end)
- Off-white color to aid in air and contaminate identification with minimal reflection
- Elastomeric compound retains its shape indefinitely and seals against glass exceptionally well
- Thick wall design increases seal life and provides increased pressure and leak resistance
- Industry leading chemical resistant compound will not shrink or swell
- For optimal results change the end seal every ten repairs

15070 4W UV Curing Lamp AA Battery Powered

AA battery operated UV Curing Lamp

- Compact size
- 2 suction cups
- Great backup light
- Requires (Four) AA Batteries (not included)
- 4W Bulb
- 1" x 2.25" x 6.5"

Replaces Part Number: 40-22

Replacement Parts:

16080 Suction Cup

16010 White UV Bulb 6" 4W

23540 Phillips Pan Screw

16000 Blue UV Bulb 6" 4W

Ultraviolet Lights and Bulbs

15230 Ignite 6V LED UV Curing Lamp with Batteries, Charger, and Mount

- Compact size
- Extremely durable
- Powerful LED
- 3.7V rechargeable batteries (Two)
- Portable battery charger
- 1 ¼" x 5 ¼"

Replacement Parts:

- 15200 Ignite Light
- 16160 Ignite Digital Battery Charger
- 16170 Ignite Rechargeable Lithium Battery
- 16180 Ignite LED UV Diode
- 16185 Ignite Switch

16150 Ignite Mount

- Powerful 2.75" diameter vacuum cup mounts securely to glass
- Multi-point adjustability
- Holds Ignite LED light at proper distance and angle for optimal curing

Replacement Parts:

- 16151 Ignite Mount Clip
- 16152 Ignite Mount Vacuum Cup

Ultraviolet Lights and Bulbs

4W Ultraviolet Bulb - 6"

These interchangeable bulbs fit the following Delta Kits UV curing lights:

- 15000
- 15005
- 15010
- 15060
- 15065
- 15070

16000 Blue

Replaces Part Number:
40-2B

16010 White

Replaces Part Number:
40-2W

16020 6W Ultraviolet Bulb - 9"

This bulb fits the following discontinued UV curing light:

- 40-1

Replaces Part Number: 40-3B

16040 9W Dual Tube Ultraviolet Bulb - 6"

This bulb fits the following Delta Kits UV curing lights:

- 15020
- 15030
- 15040

Replaces Part Number: 40-4

16050 15W Long Crack Ultraviolet Bulb - 15"

This bulb fits the following Delta Kits UV curing lights:

- 15045
- 15050
- 15055

Replaces Part Number: 40-4A

16180 Ignite LED Diode UV - 1W - 365 nm

1 Watt, replacement LED UV diode for 15200 Ignite LED UV Light

Windshield Repair Accessories

23000 Bubble Dome UV Shield

The importance of shielding an in-progress windshield repair from UV light throughout the injection process cannot be stressed enough. The Delta Kits all weather bubble dome UV shield provides UV and moisture protection.

- Effective UV blocking eliminates premature curing
- Water tight seal blocks rain and snow
- 10" opening for easy access
- 5 suction cups for secure mounting (competitors only have 3!)
- Crystal clear for easy viewing
- 16" x 10" tall (inside diameter)

Replaces Part Number: BD100

Replacement Parts:

16080 Suction Cup

23525 Knob

23530 Suction Cup Hanger Bolt

*Dimensional shipping charges apply

23005 UV Sun Shield

Effective UV protection has never been easier. The Delta Kits UV sun shield can be laid flat or rolled up for easy storage.

- Effective UV blocking eliminates premature curing
- Flexible, translucent bronze PVC is extremely durable
- 4 suction cups for secure mounting
- .080" x 8" x 16"

Replaces Part Number: UVS100

Replacement Parts:

16080 Suction Bolt

23525 Knob

23530 Suction Cup Hanger Bolt

*Custom lengths available

22415 Infrared Thermometer

Uses the latest infrared technology to enable temperature measurement in a fraction of a second without surface contact.

- Measures temperatures from -5°F to 572°F (-20.55°C to 300°C)
- Easily switched from Fahrenheit to Celsius
- LCD backlight during measurement (auto-off)

Replaces Part Number: IR-102

Windshield Repair Accessories

21000 On the Go Pro Pack

This convenient carry all provides windshield repair technicians with streamlined mobile storage for a variety of windshield repair tools and supplies. Near limitless array of configurations.

- 11 individual pockets of varying sizes to fit drill, water bottle, bridges, resin bottles, etc.
- 4 elastic and 2 Cordura loops to hold smaller tools
- Heavy duty nylon and Cordura construction
- Belt loop
- Belt clip

Assorted Individual Pouches Can Hold a Technician's Bridges, Resins, and Tools Securely in Place.

Windshield Repair Accessories

22465 Dust Blower

Easily clear a rock chip of dust and debris with this handy blower.

22425 Crack Expander

Attaches to the inside of the glass to open tight cracks and aid in the injection process.

Replaces Part Number: CX200

Replacement Parts:

16080 Suction Cup

23530 Hanger Bolt

13300 Stainless Steel Adjusting Screw

13355 Rubber Adjusting Screw Tip (One Pkg of 2)

22395 Heat Exchanger

Place on hot glass to effectively transfer heat from the glass to the Delta Kits Heat Exchanger. Cooling fins rapidly dissipate heat so the tool heats slowly and cools quickly. The Heat Exchanger is the fastest and safest way to cool windshield damage prior to starting the repair process.

- 2" Surface Diameter
- Anodized 7075 T6 Aircraft Aluminum Alloy
- Radial cooling fins provide 21% more surface cooling area than solid block heat sinks

Replaces Part Number: HX1000

22480 Pit Polishing Cork

In the glass industry cork has long been recognized for its polishing qualities and when used with Delta Kits 30400 Premium Pit Polish, cork produces just enough friction to warm the surface of the cured pit resin to produce a high gloss finish with minimal effort. Shape, size, and insignia on corks purchased from Delta Kits may vary but will not affect usability.

Windshield Repair Accessories

22001 Spring Hammer with Built in Depth Gauge

Spring loaded mechanism takes the guess work out of creating perfect mini bulls-eyes to terminate the ends of long cracks. Drill to the perfect depth every time with the innovative depth gauge. Doubles as a probe for flexing glass or removing loose glass and contaminates.

- Use 26020 Carbide Bur for proper drill hole size

Replacement Parts:

22000 Replacement Depth Gauge

22010 Hardened Steel Replacement Point (0.060 diameter)

22005 Slide Hammer

Creates perfect mini bulls-eyes to terminate the ends of long cracks and doubles as a probe for flexing glass or removing loose glass and contaminates.

- Use 26020 Carbide Bur for proper drill hole size

Replaces Part Number: 77-7SH

Replacement Parts:

22010 Hardened Steel Replacement Point (0.060 diameter)

22675 Replacement Cap

22000 Spring Hammer Depth Gauge

No more drilling into the laminate! This handy tool is included with the Delta Kits Spring Hammer and may be purchased separately.

Windshield Repair Accessories

22100 Carbide Scribe with Magnet

Carbide Scribe with Magnet.

Caution: Carbide points will scratch glass.

Replaces Part Number: 77-7

22110 Long Steel Point Scribe

Replaces Part Number: 77-7G

Replacement Part:

22115 Hardened Steel Replacement Point (0.100 diameter)

22125 Short Steel Point Scribe

Replaces Part Number: 77-7GS

Replacement Part:

22120 Hardened Steel Replacement Point (0.060 diameter)

22105 Double End Steel Point Scribe

Double End Steel Point Scribe with Straight Point and 90° Angle Point.

Replaces Part Number: 77-7D

22130 Injector Centering Tool

Perfectly aligns select Delta Kits injectors. Especially useful when the damage location makes it impossible to align the injector by sighting down the injector cylinder.

- Please call Delta Kits customer service for fitment verification

Replaces Part Number: CT500

Windshield Repair Accessories

22050 Star Break Maker

Spring loaded centering punch is used to create star breaks in practice glass. Adjustable tension to simulate different types of damage.

Replaces Part Number: 77-14

22055 Bulls-Eye Maker

Hardened steel ball is used to create bulls-eyes in practice glass. Don't be fooled by soft steel imitations that flatten with every blow; this simple tool will last indefinitely when used according to instructions.

Replaces Part Number: 77-11

22060 Hook Tool - Straight

Zinc plated, hardened alloy steel shaft with a 90° bend works well for creating bulls-eyes and combination breaks in practice glass. Also very popular for rubber gasket auto glass installations, removing cotter pins and radiator hoses, etc.

Replaces Part Number: HT253

24430 12V Moisture Evaporator

Removes moisture from most repairable windshield damage within 20 seconds. May also be used to warm small areas prior to beginning the repair process.

Replaces Part Number: DS101

Windshield Repair Accessories

22250 Thick Lay Flat Curing Tape

Economical cut to length curing tape works on flat or curved glass.

- 1.50" x 100' x 0.001" (1.0 MIL)

22245 Thin Easy Tear Curing Tape

Economical tear to length curing tape works on flat or curved glass.

- 1.37" x 50' x 0.0005" (0.5 MIL)

22255 Lay Flat Curing Tabs

- Pkg of 100
- 1.375" x 1.375" x 0.008" (8 MIL)
- Reusable

Replaces Part Number: 77-8T

22260 Lay Flat Curing Strips

- Pkg of 25
- 1" x 8" x 0.008" (8 MIL)
- Reusable

Replaces Part Number: 77-8TS

Windshield Repair Accessories

22420 Industrial Strength Razor Blade Pkg of 100

- High quality blades are stronger and hold an edge longer than similar blades
- Hardened, stainless, chromium steel
- Precision ground edges and uniform thickness for consistent cutting and scraping

Replaces Part Number: 144-4

22475 Razor Blade Holder

These durable, easy to use razor blade holders give you a firmer grip while removing resins during windshield repairs. Easily insert and remove your industrial-grade razor blades to expedite your repair process! Also works great in removing other types of films and residues.

Nylon Stick

These “bones”, as they are commonly referred to in glass shops, are thin, hard and smooth, making them a favorite of auto glass repair and replacement professionals.

- Chisel end for scraping
- Pry end for removing suction cups from glass
- Thin and narrow for installing rubber mounted windshields
- Smooth easy clean surface for smoothing urethane
- Used for a variety of home and shop applications
- Stiff and durable design out performs standard bones

Available in two packaging options:

22200 Nylon Stick

Replaces Part Number: 77-9

22205 Nylon Stick Pkg of 12

Replaces Part Number: 77-9DOZ

Windshield Repair Accessories

Cerium Oxide Buffing Compound

Premium cerium oxide glass polishing powder is mixed with water to create a slurry for fine edge polishing and removing light scratches in glass. Use with Delta Kits 25010 Polishing Head for windshield scratch removal.

Available in a variety of packaging options:

25005 8 oz Jar

Replaces Part Number: CO1

25000 8 lb Bucket

Replaces Part Number: 263-1018

25001 110 lb Steel Drum

25010 Polishing Head

Use with Delta Kits Cerium Oxide Buffing Compound to remove light scratches and wiper marks from glass.

- Instructions included
- 1.5" x 3" dense wool felt wheel with aluminum backing plate
- 5/8"-11 threaded arbor (1/4" drill adapter included)
- Minimum operating speed 1,300 RPM

Replaces Part Number: PH1

Kreme 'n Kleen

Removes hard water spots quickly and easily! Cleans like other products only dream about!

Kreme 'n Kleen is excellent for removing stubborn spots, soot, paint, build-ups, scuffs, grease, rubber marks, and soap scum. Works great on glass, porcelain, ceramic, stainless steel, chrome, formica, fiberglass, and other hard surfaces. Controlled sudsing, leaves no film!

Water Spot Remover is abrasive and contains chemical cleaners that can remove mineral deposits quickly and with ease.

Available in a variety of packaging options:

25025 Kreme 'n Kleen - 2 oz

Replaces Part Number: KL102

25020 Kreme 'n Kleen - 8 oz

Replaces Part Number: KL108

25015 Kreme 'n Kleen - 32 oz

Replaces Part Number: KL100

Windshield Repair Accessories

Derma Shield

Derma Shield is a non-greasy, non-toxic, temporary skin protectant that can be applied to any area of the skin. Within 4 to 5 minutes after proper application, Derma Shield becomes an invisible protectant that actually bonds to the skin and helps protect it up to 4 hours, even after repeated washings.

Shields skin against gasoline, dirt, oil, grease, cleaning solvents, harsh detergents, copy toner, most dyes, shoe polishes, poison ivy, paint, ink, glues, chemicals and provides temporary protection against most acids and bases, organic, and inorganic.

Available in two packing options:

25040 2 oz

Replaces Part Number: DS803

25045 8 oz Pump

23015 Hood Protector

Extra tough 27" x 70" hood protector, covers from fender to fender on most vehicles during windshield repair. Protects hood and fenders from glass fragments, resins, urethanes, tools and clothing that can cause damage to painted surfaces.

Replaces Part Number: HP200

Locking Mini Sprayer

The 3 oz personal spray bottle is airline-friendly, contains a nozzle-locking mechanism, and fits perfectly in tool belts, tool boxes, and small bags. Windshield repair technicians can fill it with glass cleaner, and the 3 oz bottle fits perfectly in Delta Kits' On-the-Go Pro Pack (Part # 21000, sold separately). Color of bottle will vary.

Available in two packaging options:

21100 3 oz

21101 3 oz Pkg of 5

Windshield Repair Accessories

24240 Battery Charger Maintainer USA

- 120V AC Input, 60Hz
- 12V DC Output at 750 mH
- Perfect for all 12V lead-acid, flooded or sealed maintenance free batteries (AGM and gel cell)
- Complete 4-step charging program (Initialization, Bulk Charge, Absorption Mode, Float Mode)
- Automatically switches to float / maintenance voltage after fully charging the battery
- If the battery voltage drops too far under load, full charger output power resumes.
- Solid state two color LED indicates stage of charger

- Spark proof
- Reverse polarity protected.
- 12' output cord

Replaces Part Number: BCH102

Battery Charger Maintainer International

Same great features as our USA charger but with international universal input voltage that works anywhere in the world, indoors or out. Additional features include:

- 100-240V AC Input, 50/60 Hz

- "Supersmart" Technology
- Short Circuit Protected
- 100% Waterproof

Available in the following plug configurations:

24310 "A Type Plug"

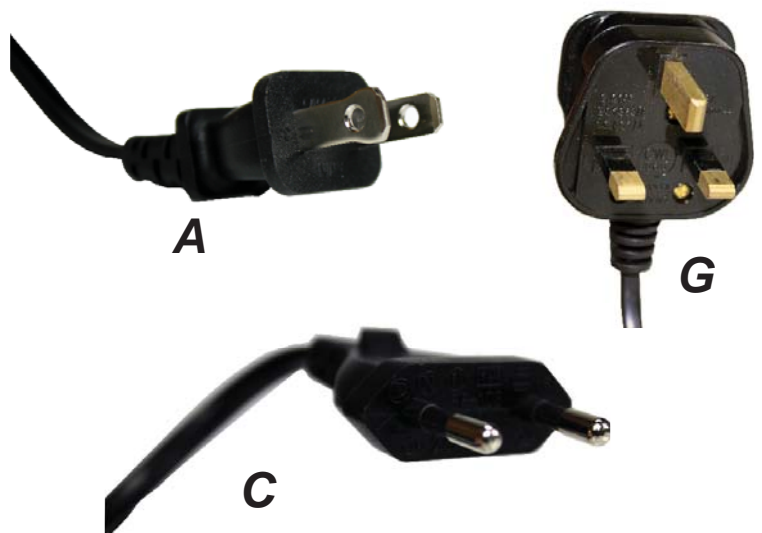

Replaces Part Number: BCH402

24280 UK "G Type Plug"

Replaces Part Number: BCH302

24260 EU "C Type Plug"

Replaces Part Number: BCH202

Plug styles shown are for informational purposes only, colors and design may vary.

Windshield Repair Accessories

24350 12V Battery with Charger

Delta Kits exclusive 12V, 2.5 amp power packs are compact, durable, and portable. Compatible with all Delta Kits 12V accessories, there is no need to worry about using the vehicle's port ever again! This rugged, lightweight battery pack includes a heavy duty nylon cover and charger.

Replaces Part Number: BTYC101

24540 Battery Adapter

Directly connect any 12V appliance or accessory to a 12V battery with these color coded heavy duty alligator clips and 12V female cigarette lighter receptacle.

Replaces Part Number: BA100

24415 12V Extension Cord with 10' Coil

Heavy duty cigarette lighter extension cord. Fits all lighter receptacles. 10 ft. coiled extension for additional reach to accessories. Ideal for RV's, trailers, vans, etc.

Replaces Part Number: A303

24400 12V Double Socket Power Outlet

This cigarette lighter dual socket adapter is a quick and easy way to add an additional lighter plug socket to any vehicle. Operate two 12V accessories simultaneously through a cigarette lighter plug.

Replaces Part Number: A1202

24410 12V Triple Socket Power Outlet

This multi-socket, power adapter, extends the single cigarette lighter power outlet into three 12V outlets or two 12V outlets and a cigarette lighter source. Also the length of the cord is now 60".

Replaces Part Number: A124M

Windshield Repair Accessories

22275 Glass Inspection Mirror with 3X Magnification

Windshield Repair Glass Inspection Mirror attaches to the inside of the glass to allow monitoring during the repair process from outside of the vehicle.

- Measures 2mm x 50.8mm
- 3x Magnification

Replaces Part Number: 144-7G

Replacement Parts:
16080 Suction Cup

22265 Acrylic Inspection Mirror

Windshield Repair Inspection Mirror attaches to the inside of the glass to allow monitoring of windshield repair process from outside of the vehicle.

Replaces Part Number: 144-7

Replacement Parts:
16080 Suction Cup

22300 Syringe - 3CC - Clear - 18 Gauge Blunt Needle

- Insert and retrieve resin from injectors
- Blow dust and loose glass from drill holes
- Calibrated for accurate measurement

Replaces Part Number: 77-12

22305 Syringe - 3CC - Black - 18 Gauge Blunt Needle

- Insert and retrieve resin from injectors
- Blow dust and loose glass from drill holes
- UV resistant black color

Replaces Part Number: 77-13

22285 Syringe - 10CC - UV Resistant

Replaces many syringe type injectors. Not calibrated. UV resistant

Replaces Part Number: 77-OPG

Scorpion Flex Tool

Scorpion Flex Tool

The Scorpion is a multi purpose tool designed to give you an extra set of hands while completing windshield repairs. The dual arm model fixes firmly to the glass using a high quality vacuum cup and can hold multiple accessories at the same time.

Base width: 4"

Arm length: 12"

Mounting plate width: 2"

Scorpion Flex Tool accessory attachments sold separately:

- 37100 Flashlight Attachment Large
- 37105 Flashlight Attachment Medium
- 37110 Flashlight Attachment Small
- 37120 Hook and Loop Utility Attachment
- 37130 8" x 10" Flat UV Shield Attachment

Attachments sold separately.

37000 Scorpion Flex Tool Base - Single Arm

37010 Scorpion Flex Tool Base - Dual Arm

37050 Scorpion Flex Tool Replacement - Flex Arm

The Large Flashlight Attachment is Shown Holding a Long Crack Lamp with the Dual Arm Scorpion Flex Tool.

Scorpion Flex Tool

37100 Scorpion Flashlight Attachment Tool - Large

A rugged 1-1/2" clip on a sturdy aluminum base that will firmly attach a flashlight or long crack light to your single or dual arm Scorpion Flex Tool. Get perfect placement of that extra light you need to see a repair or hold a UV light in perfect position while a repair is curing.

37105 Scorpion Flashlight Attachment Tool - Medium

A robust 1-1/8" diameter clip on a sturdy aluminum base that will firmly attach a flashlight to your single or dual arm Scorpion Flex Tool. Get perfect placement of that extra light you need to see a repair.

37110 Scorpion Flashlight Attachment Tool - Small

A rugged 3/4" diameter clip on a sturdy aluminum base that will firmly attach a small flashlight to your single or dual arm Scorpion Flex Tool. Get perfect placement of that extra light you need to see a repair.

37120 Scorpion Flex Tool - Utility Attachment

The utility attachment firmly holds a range of different items with an industrial strength hook & loop pad. Ideal for positioning a 6" curing lamp or other tool in the exact position you need.

The Utility Attachment includes an anodized aluminum plate with both hook and loop industrial strength pads.

(UV lamp shown for illustrative purposes only and is not included with the Utility Attachment)

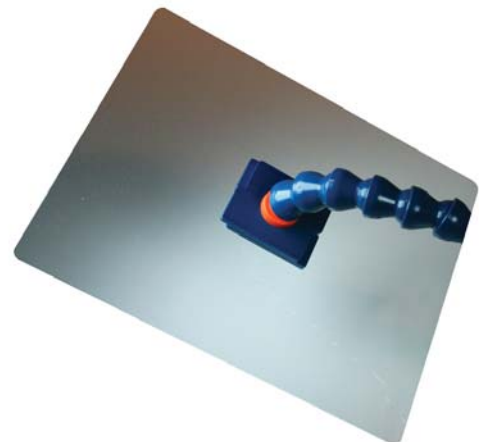

The Utility Attachment is shown holding a UV Lamp with the Scorpion Flex Tool.

37130 Scorpion Flex Tool - UV Shield Attachment

The UV Shield attachment allows you to protect a repair from UV light to prevent premature curing while allowing for maximum visibility. Measuring 8" x 10" and constructed of clear UV blocking plastic, this attachment includes a solid aluminum plate to attach to the dual and single arm Scorpion Flex Tool.

(Scorpion Flex Tool arm shown for illustrative purposes only and not included with the UV Shield Attachment.)

Headlight Restoration Products

Delta Kits ClearPro and ClearPro PLUS Headlight Restoration Systems are constructed and designed with the high standard of quality Delta Kits users have come to expect. Our Headlight Restoration Systems will eliminate yellow or cloudy discoloration from polycarbonate headlights.

Not only are our systems effective and easy to use, but you will be shocked by the tremendous results and the enormous profits by offering this service. The restoration is quick and simple to complete, and provides a like-new finish that will significantly enhance the value, safety and appearance of any vehicle. Headlight restoration is a highly profitable service that saves each customer hundreds of dollars. The Delta Kits Headlight Restoration Systems are easy to use and always produce professional results.

Headlight Restoration Products

54100 Coat2Protect Headlight Coating

Headlight Restoration Coat and Catalyst combination package. Use coating and catalyst for added gloss and protection.

Each bottle is 8 ounces.

Replaces Part Number: HLC2PROT08

Clean2Prep Spray

An essential step in the headlight restoration process, Clean2Prep effectively cleans and primes the surface, melting grit, grime and stains away in seconds. Use prior to initial sanding step, between each additional sanding step, and prior to applying final protective coating. Speeds up the sanding and assures a strong bond between the coating and the headlight.

Available in the following sizes:

54200 8 oz

Replaces Part Number: HLC2PREP08*

54220 1 Gallon Bottle

58020 120V Professional 3" Random Orbital Sander

Discover the numerous benefits of using a random orbital sander for headlight restoration. Faster than hand-sanding, the powerful 240W motor runs on a variable speed control with a range of 3,500 to 10,000 orbits per minute. With six speed settings you can set the correct speed for the job for improved control and precision. The steel bevel gear drive is designed for smooth-running and durability. The convenience of a 3-inch hook and loop backing plate means the sander can be used with any three-inch accessory for polishing paint, metal, and glass as well as applying waxes or sealants. The comfortable ergonomic design features a hand grip and finger indents for comfort and control.

240V

Also available in 240V

58010 240V Professional 3" Random Orbital Sander

Headlight Restoration Products

58030 Replacement Backing Plate

Hook-and-loop replacement backing plate for the Griot's Professional 3" Random Orbital Sander. Made of molded urethane, this material is flexible yet incredibly durable. Sturdy hook-and-loop style face for use with 3" hook-and-loop sanding discs. Remove and replace sanding discs easily. Stud size: 5/16"- 24.

Headlight Restoration 3" Sanding Discs

The 180 grit sanding disc can be used for initial sanding on headlights that have severe discoloration. Once the initial sanding is completed, resume the regular sanding procedure using the 320, 500, 800, 1200 and 1500 grit sanding discs, followed by the 3000 grit polishing disc.

- 56000 180 Grit Sanding Disc (Pkg of 10)**
- 56020 320 Grit Sanding Disc (Pkg of 30)**
- 56025 500 Grit Sanding Disc (Pkg of 30)**
- 56034 800 Grit Sanding Disc (Pkg of 30)**
- 56036 1200 Grit Sanding Disc (Pkg of 30)**
- 56040 1500 Grit Sanding Disc (Pkg of 30)**

56060 Headlight 3" Polishing Disc - 3000 Grit (Pkg of 30)

Use polishing disc to restore cloudy headlights. It is recommended to start with 320, 500, 800, 1200, 1500 grit-sanding discs, and finally the 3000 grit-polishing disc.

56100 Hook & Loop Interface Pad

The 3" diameter foam hook and loop interface pad is designed specifically to maximize even sanding on uneven surfaces.

56110 Foam Polish Pad (Pkg of 2)

Foam pad attaches to your orbital sander and are used to polish headlights. Hook and loop backing.

Certified Training

Delta Kits Windshield repair training is a hands-on, intensive, one day course designed to take your repair quality to the next level. Whether you are just starting out or are a seasoned pro, this class is right for you!

Our team of experienced technicians are dedicated to offering the highest standard of training in the windshield repair industry. During the Delta Kits Training and Certification course, technicians are trained to follow ROLAGS (Repair of Laminated Auto Glass Standards), the industry's best practices. Delta Kits Training and Certification covers all technical aspects of windshield repair and will take you from never having completed a repair, to being among the best technicians in the industry. The marketing and insurance billing discussion is designed to help you become more successful in your windshield repair business.

Delta Kits also provides on the road training outside of Oregon during select dates throughout the year.
