Windshield Repair Certification Class

Our Team of Experienced Technicians are Dedicated to Offering the Highest Standard of Training in the Windshield Repair Industry

Simply The Best!

Windshield Repair Certification Class

Delta Kits Windshield repair training is a hands-on, intensive, one day course designed to take your repair quality to the next level. Whether you are just starting out or are a seasoned pro, this class is right for you!

During the Delta Kits Training and Certification course, technicians are trained to follow ROLAGS (Repair of Laminated Auto Glass Standards), the industries best practices. Delta Kits Training and Certification covers all technical aspects of windshield repair and will take you from never having completed a repair, to being among the best technicians in the industry. The marketing and insurance billing discussion is designed to help you become more successful in your windshield repair business.

How much does it cost?

"I went to the class as a pure novice in the windshield repair industry. The hands-on training was just great. There is no way you can put a price tag on this type of individual training and the information on the industry itself. I researched the market for a year before I chose Delta Kits. The reasons I chose Delta Kits are its superior equipment and the superiority of its resins. My advice to anyone out there who is considering the windshield repair industry...GO DELTA!"
