PROFESSIONAL WINDSHIELD REPAIR & HEADLIGHT RESTORATION PRODUCTS

THE CHOICE OF
TECHNICIANS WORLDWIDE

CERTIFIED TRAINING

Delta Kits windshield Repair training is a hands-on, intensive, one day course designed to take your repair quality to the next level. Whether you are just starting out or are a seasoned pro, this class is right for you!

Our team of experienced technicians are dedicated to offering the highest standard of training in the windshield repair industry. During the Delta Kits Training and Certification course, technicians are trained to follow ROLAGS (Repair of Laminated Auto Glass Standards), the industry's best practices, to cover all technical aspects of windshield repair - you'll go from never having completed a repair to being among the best technicians in the industry. Also included is a marketing and insurance billing discussion that is designed to help you become more successful in your windshield repair business.

Training classes are offered at our headquarters in Eugene, OR throughout the year. For customized class options, give us a call to discuss.

EXPERIENCE THE **DELTA DIFFERENCE**

Thank you for your interest in Delta Kits professional windshield repair and headlight restoration products. Delta Kits has many satisfied customers around the world, and we appreciate the opportunity to show you why. Delta Kits is, and always has been, at the forefront of the market since the company's inception in 1984. We do this by selling only the highest quality products in the industry and backing that up with exceptional service and support.

Thanks again and I hope you enjoy our product.

Brent Deines, President

QUALITY PRODUCTS

Our industry leading tools, resins, and equipment are preferred by professional windshield repair and headlight restoration technicians worldwide and are respected for quality, durability, and ease of use.

PROVEN RESULTS

Used by over 10,000 customers in over 75 countries, our windshield repair and headlight restoration products are highly profitable with low up-front and marginal cost. If you're not satisfied, we also provide a 30-day money-back guarantee.

INDUSTRY EXPERTS

Our team of award-winning windshield repair experts have almost 70 years combined experience as educators, technicians, and leaders in the industry - setting a standard of excellence for auto glass repair.

36021 EZ-450D MOBILE PRO

This value-packed, top-of-the-line windshield repair system from Delta Kits gives you more resin, more polish, more razor blades, and more equipment and accessories than any other windshield repair system in its price range, including our moisture evaporator, hood protector, and more. Best of all, you save more money in the long run with enough supplies to complete up to 200 repairs vs the 100 or less repairs in our other windshield repair systems.

Replaces many syringe type injectors. Not calibrated. UV resistant.

22300 SYRINGE - 3CC - CLEAR 18 GAUGE

Clear syringe with blunt needle is used to insert and retrieve resin from injector on a vertical surface.

22305 SYRINGE - 3CC - BLACK 18 GAUGE

Black syringe with blunt needle is used to insert and retrieve resin from injector on a vertical surface.

22395 HEAT EXCHANGER

The Heat Exchanger works as a heat sink, removing heat from the glass and transferring it into the tool. Works best when using 22430 Moisture Evaporator.

22420 RAZOR BLADE - BOX OF 100

Box of 100 industrial quality single edge razor blades.

22425 CRACK EXPANDER

Attaches to the inside of the glass to open tight cracks and aid in the injection process.

Also available:

16080 Suction cups

22430 CHIP SAVERS, 100 PACK

A great marketing tool, use Chip Savers to cover newly acquired rock chips with the small adhesive circles on the back of the card. Add your name and phone number to double as a business card.

**22435 CLEANING JAR**

6 oz. Injector cleaning jar and cap to clean materials.

**22440 SAFETY GLASSES**

It's important to remember safety when conducting repairs - these safety glasses are UV resistant and will protect your eyes..

**22465 DUST BLOWER**

Easily clear a rock chip of dust and debris with this handy blower.

**22475 RAZOR BLADE HOLDER**

Get a firmer grip while removing resins during windshield repairs.

**INJECTOR END SEALS**

Made of superior materials and using our proprietary molding process, our seals outperform the competition for fit, form, and function.

Available in two packaging options:

12210 Injector end seals - 5 pack

12215 Injector end seals - 100 pack

23000 UV BUBBLE DOME

Shield in-progress windshield repairs from UV light during the injection process with this all-weather bubble dome that provides UV and moisture protection.

Also available:

16080 Suction Cup

23525 Knob

23005 UV SHIELD, 8" X 16"

Suction cups on all four corners keep the UV sun shield attached while blocking the sun's ultraviolet rays to eliminate premature curing.

Also available:

16080 Suction Cup

23525 Knob

23010 BANNER

A great marketing tool, this bright 34" x 72" banner helps you to advertise your windshield repair service.

HOOD PROTECTOR

Extra tough 27" x 70" hood protector, covers from fender to fender on most vehicles

Available in two packaging options:

23015 Hood Protector

23020 No Logo Hood Protector

24240 BATTERY CHARGER MAINTAINER - 12V

Charger with 12-volt power cord, for mobile battery pack.

24350 BATTERY, CHARGER, & COVER - 12V - 2.5 AMP

Delta Kits exclusive 12-volt power packs are compact, durable, and portable.

24430 MOISTURE EVAPORATOR

Eliminates moisture trapped in most windshield repairs within 20 seconds.

CERIUM OXIDE

High quality cerium oxide glass polish product used to remove scratches from windshields, tempered glass, and plate glass.

Available in two packaging options:

Kit case for Delta Kits Windshield Repair System. 9 x 10.5 x 20.25
Comes complete with custom foam fitted interior to keep your tools and supplies organized.

DERMA SHIELD SKIN PROTECTANT

Derma Shield is a modern day solution to solving skin hygiene problems and is a cost-effective, efficient method of providing skin protection for you and your workforce.

FAR MORE THAN JUST A BARRIER CREAM

LIGHT & EASY TO USE - Derma Shield's laboratory and clinically tested formulation is applied as a mousse and quickly dries, leaving your skin able to breathe and perspire normally.

SAFE & NON-TOXIC - We use only clinically-tested hypoallergenic, steroid, and fragrance-free ingredients, so you can use Derma Shield on any area of the skin with confidence.

MOISTURIZES, NOURISHES, AND LOCKS IN NUTRIENTS -

Pharmaceutical grade moisturizers help maintain your skin's correct hydration levels while its vitamin E and aloe Vera ingredients encourage a healthy, supple, and itch-free outer layer.

ONE APPLICATION LASTS UP TO 4 HOURS - With proper application, Derma Shield is wash-resistant and comes off as your skin sheds naturally.

NON-GREASY FOR NATURAL DEXTERITY DURING WORK - The quick-drying and non-greasy feel leaves your hands free for their normal dexterity and daily routine.

PROTECTS AGAINST IRRITANTS - Provides a microscopic, undetectable protective layer over your skin to help block skin irritants.

INHIBITS ODORS LINGERING ON SKIN - The microscopic protective shield helps repel strong odors from sinking into your skin.

DERMA SHIELD

AVAILABLE SIZES

25060 17 OZ. AEROSOL

Most popular size! Ideal for the regular user, it will last approximately 14 to 15 months if used twice a day on an adult pair of hands. Perfect for the individual or group that needs protection on their hands daily.

25065 6 OZ. AEROSOL

A step up from the sample size, this bottle will last up to 4 months when used twice a day on an adult pair of hands. Perfect to see results long-term on you or your workers' hands.

25070 2 OZ. AEROSOL

Our most popular sample size, this bottle will last about a month if used twice a day on an adult pair of hands.

HEADLIGHT RESTORATION RESTOCK KIT

Infinity 4.1 is Delta Kits exclusive headlight restoration coating and solves problems commonly encountered by headlight restoration technicians. The fast dry time, superior durability, and easy application make Infinity 4.1 the choice of headlight restoration professionals worldwide.

54110 INFINITY 4.1 HEADLIGHT RESTORATION COATING

Infinity 4.1 is Delta Kits' exclusive headlight restoration coating and solves problems commonly encountered by headlight restoration technicians. Shorter and stronger cure. Water based.

54200 Clean2Prep

8 oz. spray to clean headlights prior to headlight restoration and after each of the polishing steps.

PREMIUM POLISHING COMPOUND

Water based product that can be used to remove fine scratches and swirl marks left from 1500-3000 grit sanding discs and polishing pads prior to the coating application.

Available in

54315 Polishing Compound 8 oz.

54320 Polishing Compound 24 oz.

35010 HEADLIGHT TOOLBOX

Tool Box for Headlight Restoration System. Comes complete with custom foam fitted interior to keep your tools and supplies organized.

54000 DUST MASK

This mask helps provide comfortable, reliable worker protection while sanding headlights.

54005 2" MASKING TAPE

Use the low adhesion level masking tape to prepare vehicles for headlight restoration.

54010 LINT FREE PAPER SHOP TOWEL

Blue Shop Towels, perfect for applying our UV coating over the headlight lens.

54015 MIXING CUP

Mixing cup, ideal for mixing the headlight restoration coating together.

54425 SPRAY BOTTLE

8 oz. empty spray bottle for use with water.

3" RANDOM ORBIT SANDER

Faster than hand-sanding, the powerful 240W motor runs on a variable speed control with a range of 3,500 to 10,000 orbits per minute.

Available in two packaging options:

58020 Random Orbital 120 volt

58010 Random Orbital 240 volt Euro Plug

58030 BACKING PLATE - 3" - REPLACEMENT

Hook-and-loop replacement backing plate for the 3" Random Orbit Sander.

58000 MOTOR BRUSHES - GRIOT'S RANDOM ORBIT SANDER

A set of replacement motor brushes for the 3" Random Orbit Sander.

56100 3" INTERFACE PAD

The 3" diameter foam hook and loop interface pad is designed specifically to maximize even sanding on uneven surfaces.

3" SANDING DISCS

56000 180 grit Pkg of 10

56520 320 grit Pkg of 50

56525 500 grit Pkg of 50

56534 800 grit Pkg of 50

56536 1200 grit Pkg of 50

56540 1500 grit Pkg of 50

56060 3" POLISHING DISCS

This 3000 grit polishing disc comes in a pack of 30 for use with Delta Kits ClearPro PLUS headlight restoration systems.

TESTIMONIALS

I started doing windshields at a car wash and saw the potential in revenue increase drastically. Then I got certified by Delta Kits! Business really took off! The knowledge of windshield repair and headlight restorations has helped me generate over \$60,000 in 6 months in the car wash industry. Thanks to Delta Kits I am proud of the work I do and not only that, I order my products and resin from them to maintain the quality of work I do. The windshield repair forum is another way to get ideas and tips on how to earn business and to market services. I am grateful to Delta Kits for the certification and training.

AJ BUTLER

OUR WEBSITE,
DELTAKITS.COM

I purchased the Headlight Restoration system that Delta Kits offers and it makes me look good everyday! The quality of the finished product is jaw dropping. I really get that "wow" factor from my customers after I restore their headlights. The system is extremely complete and I have already made my investment back.

ERIC D.

From visiting the website and having the pleasure of speaking with account executive Korey Gobin, to viewing the how-to videos, and ultimately using the windshield repair system, we knew Delta Kits was "Simply the Best". You're always available to help! Our calls and emails are handled promptly without any delay. Delta Kits' equipment is of great quality & craftsmanship. The system out performs others and produces optimal results every repair with simplicity. In addition, there isn't any hard to use or unnecessary pumps and hoses. From the beginning, we knew we were in good hands and we continue to be treated just as if we're family. We are extremely satisfied and Time2Shine Auto Spa & Reconditioning are customers of Delta Kits for life! Thanks for all the hard work and determination in an extraordinary piece of equipment, and for creating a voice for the Windshield Repair Community with the Windshield Repair Forum. I encourage anyone seeking a career move into the Windshield Repair Industry to choose Delta Kits! You will be pleased and you won't regret you did it.

CHAD C.

Simply put, if you are looking for a windshield repair system that uses less resin, costs less, and uses fewer consumable parts, then you should give the Delta Kits a try. We tested the double bridge system and would definitely recommend it. It's far more productive and we found it enabled us to strike deals with our customers. We offered a second repair for half price; this meant extra revenue for no extra time. Easy!

MICHAEL SMEDLEY (JP)

I would like to tell everybody about my experience with Delta Kits. I have made over \$4,000 during my first month in business. I now have a location with great traffic and have had to upgrade to a 2 bridge kit. I have reordered supplies 3 times already, (which is a great problem to have!) Thanks Delta Kits and Korey for helping me make a GREAT living while I am going through the police academy. I am about to open my 2nd location!

WES G.
