

# MATERIAL (SAFETY DATA SHEET)

PRODUCT INFINITY  
Version 1

Page 1 of 2

## 1 Product Identification

Product code:54115, 54125, 54600  
Synonyms: Amerithane  
Manufacturer/Supplier  
Delta Kits Inc.  
1090 Bailey Hill Rd. Suite A  
Eugene Or. 97402  
Tel: (800) 548-8332  
Fax: (541) 345-1591

Chemtel  
Emergency Telephone number  
(800) 255-3925 US  
(813) 248-0585 Int.

## 2 Hazard identification

### Emergency Overview:

#### Warning!

Causes respiratory tract and eye irritation. May be harmful if inhaled or swallowed. Sanding and grinding dusts may be harmful if inhaled. Prolonged or repeated contact may dry skin and cause irritation.  
Do not breathe vapor or mist. Do not swallow. Avoid contact with eyes, skin and clothing. Use only with adequate ventilation. Keep container tightly closed and sealed until ready for use. Wash thoroughly after handling.

#### GHS Ratings:

#### GHS Hazard Statements:

H315. Causes skin irritation  
H320 Causes eye irritation

H335 May cause respiratory irritation  
H336 May cause drowsiness or dizziness

#### Precautionary Statements:

P271 Use only outdoors or in a well-ventilated area

P264 Wash thoroughly after handling.  
P340 Remove victim to fresh air and keep in a position comfortable for breathing.

#### Signal Word Warning

## 3 Composition

Chemical Name	C.A.S. number	Weight-%
PROPYLENE GLYCOL	54-55-6	13.00%
GLYCOL ETHER DB	112-34-5	6.00%
AMP-95 <sub>ni</sub> 2-Amino-2-methyl-1-propanol	121-44-8	1.0%

## 4 First Aid Measures

#### Eye Contact:

Immediately flush eyes with plenty of water for at least 15 minutes while holding eyelids open. Seek medical aid if irritation persists.

#### Skin Contact:

Remove contaminated clothing/shoes. Flush skin with water for at least 15 minutes. Follow by washing with soap and water. If irritation occurs, get medical attention. Do not reuse clothing until cleaned.

#### Inhalation:

Immediately remove victim to fresh air. If victim is not breathing, give artificial respiration. If breathing is difficult, oxygen should be administered by qualified personnel. Seek immediate medical attention.

#### Ingestion:

DO NOT INDUCE VOMITING. Do not attempt to give anything by mouth to an unconscious person. If vomiting occurs spontaneously, keep head below hips to prevent aspiration of liquid into the lungs. Get medical attention.

## 5 Fire-Fighting Measures

#### Flash Point:

>216° F / >102° C This product does not support combustion.  
LEL: N/A UEL:

#### Fire fighting procedures:

Use water fog, "alcohol" foam, dry chemical, or CO2. Use local exhaust ventilation, or other engineering controls to maintain airborne levels below exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, general ventilation should be sufficient for most operations.

Closed containers may explode due to pressure build-up of steam when exposed to extreme heat. Material can splatter above 100C/212F. Polymer film can burn.

Decomposition products may include the following materials: carbon oxides, metal oxide/oxides. Clear fire area of unprotected personnel. Do not enter confined fire space without full bunker gear, including a positive pressure NIOSH approved SCBA. Cool fire exposed containers with water. Self-contained breathing apparatus with a full face piece operated in pressure-demand or other positive pressure mode to protect against the hazardous effects of normal products of combustion or oxygen deficiency.

## 6 Accidental Release Measure

#### General Procedures:

Take proper precautions to ensure your own health and safety before attempting spill control or clean-up. For More specific information, refer to the emergency overview on page 1, exposure controls and personal protection in Section 8 and disposal considerations in Section 13.

#### Environmental Precautions:

##### Water spill:

Keep material out of storm sewers and ditches which lead to waterways.

##### Land spill:

Contact applicable authorities and determine applicable regulations based on SDS information.

##### Air release:

Contact applicable authorities and determine applicable regulations based on SDS information.

#### Personal Precautions: For non-emergency personnel:

##### Protective equipment:

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

##### Emergency precautions:

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

##### Method of cleaning up:

Clean up spills immediately and dispose of waste safely.

## 7 Storage and Handling Procedures

#### Precautions for safe handling:

Avoid freezing. Protect against physical damage. Handle in accordance with good industrial hygiene and safety practices. Store containers in a cool, dry location. Observe all warnings and precautions listed for this product. KEEP OUT OF REACH OF CHILDREN.

## 8 Exposure Controls and Personal Protection

Chemical Name	OSHA Exposure Limits	ACGIH Exposure Limits	Other Exposure Limits
PROPYLENE GLYCOL	Not Established	Not Established	Not Established
GLYCOL ETHER DB	Not Established	Not Established	Not Established
AMP-95 <sub>ni</sub> 2-Amino-2-methyl-1-propanol	Not Established	Not Established	Not Established

#### Engineering controls:

Provide exhaust ventilation sufficient to keep the airborne concentration of this product below its exposure limits. Exhaust air may need to be cleaned by scrubbers or filters to reduce environmental contamination.

#### Personal Protective Equipment:

##### Eyes and face:

Use chemical safety goggles and/or full face shield where splashing is possible. Contact lenses should not be worn when working with this material. Maintain eye wash fountain and quick-drench facilities in work areas.

##### Skin:

Wear chemical resistant gloves such as: Poly Vinyl Alcohol(PVA), Viton, Nitrile or Teflon gloves or consult your safety equipment supplier. Depending on the conditions of use, protective gloves, apron, boots head and face protection should be worn. The equipment must be cleaned thoroughly after each use.

##### Respiratory:

If exposure may or does exceed occupational exposure limits (Section8) use a NIOSH approved respirator to prevent overexposure. In accord with 29 CFR 1910.134, use either an atmosphere-supplying respirator or an air-purifying respirator for organic vapors.

##### Work & hygienic practices:

Use good personal hygiene when handling this product. Wash hands after use, before eating, drinking, smoking or using the toilet.

##### Protective clothing:

Where splashing is possible, chemically resistant protective clothing and boots are recommended.

##### Other use precautions:

Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower.

9 Physical and Chemical Properties

Physical state	Liquid
Vapor Density:	Heavier than air
Evaporation rate:	Slower than ether
Specific Gravity (SG)	1.011
Boiling point	212 °F/100°C)

10 Stability and reactivity

Stability: Yes.  
 Hazardous Polymerization: Will not occur.  
 Conditions to avoid: Avoid freezing. Avoid contact with strong oxidizing agents.  
 Thermal decomposition may yield carbon dioxide, carbon monoxide, and/or acrylic monomers.

11 Toxicological Information

Mixture toxicity

Component Toxicity

Toxicological testing has not been conducted with this material.

Acute effects:

Eye: Irritating to eyes.  
 Skin: May cause skin dryness and irritation.  
 Inhalation: Excessive inhalation of vapors or mist can cause nasal and respiratory irritation, dizziness, weakness, fatigue, nausea and headache. Inhalation of very high concentrations or prolonged exposure may cause coma, unconsciousness or death.  
 Ingestion: Swallowing the liquid may cause vomiting, gastrointestinal irritation, nausea, and diarrhea. If vomiting occurs spontaneously, do not allow vomit to be breathed into the lungs as even a small amount in the lungs can cause extreme danger.  
 Target organ: Data not available.  
 Chronic effects: Relevant data not available

Effects of Overexposure

Carcinogenicity:

NTP Carcinogen: NO  
 IARC Monographs: NO  
 Individuals with pre-existing skin, eye or respiratory disorders may be more susceptible when using this product.

12 Ecological Information

Ecotoxicological information: Avoid uncontrolled releases of this material. Where spills are possible, a comprehensive spill response plan should be developed and implemented.  
 No known significant effects or critical hazards are associated with this product.

13 Disposal considerations

Disposal method: Any disposal practice must be in compliance with federal, state and local regulations. Do not dump into sewers, ground, or any body of water.

XIV. Transportation information

DOT: Department of Transportation:  
 Proper shipping name: Not regulated  
 Primary hazard class/division: N/A  
 Un/NA number: N/A  
 Packing group: N/A  
 NAERG: N/A  
 Reportable quantity (RQ) Under CERCLA:  
 Label: N/A

15 Regulatory Information

California Proposition 65: This material does not contain components which are known to the state of California to cause cancer, birth defects or other reproductive harm, and may be subject to the requirements of California Proposition 65 (CA Health & Safety code Section 25249.5)

Sara 313 Toxic Chemical Notification and Release Reporting: This product contains the following components in concentrations above de minimis levels that are listed as Toxic Chemicals in 40 CFR 372 pursuant to the requirements of Section 313 of SARA: NONE

XVI. Other information

HMIS RATING	
Health	1
Flammability	0
Reactivity	0
Personal Protection	B
